WINNER OF THE ROYAL SOCIETY SCIENCE BOOK PRIZE An instruction manual for life, love, and relationships by a brilliant young scientist whose Asperger's syndrome allows her--and us--to see ourselves in a different way...and to be better at being human Diagnosed with Autism Spectrum Disorder at the age of eight, Camilla Pang struggled to understand the world around her. Desperate for a solution, she asked her mother if there was an instruction manual for humans that she could consult. With no blueprint to life, Pang began to

create her own, using the language she understands best: science. That lifelong project eventually resulted in *An Outsider's Guide to Humans*, an original and incisive exploration of human nature and the strangeness of social norms, written from the outside looking in--which is helpful to even the most neurotypical thinker. Camilla Pang uses a set of scientific principles to examine life's everyday interactions: - How machine learning can help us sift through data and make more rational decisions - How proteins form strong bonds, and what they teach us about embracing individual differences to form diverse

groups - Why understanding thermodynamics is the key to seeking balance over seeking perfection - How prisms refracting light can keep us from getting overwhelmed by our fears and anxieties, breaking them into manageable and separate "wavelengths" Pang's unique perspective of the world tells us so much about ourselves--who we are and why we do the things we do--and is a fascinating guide to living a happier and more connected life. 'Powerful and poignant.' Virginia McKenna OBE, Born Free Ethical veganism is not just a diet. Not just an opinion; nor a trend. This is a 21st-century revolution which began more

than twenty centuries ago. Ethical veganism is not only about the food you choose to consume, it is a coherent philosophical belief that affects most areas of your life, and which could be the answer to today's global crises. Jordi Casamitjana is the vegan zoologist and animal protection campaigner whose landmark Employment Tribunal in 2020 made ethical veganism a protected belief in Great Britain. Ethical Vegan describes Jordi's extraordinary life and the animal encounters which led him to veganism and legal victory. It debunks myths and dispels preconceptions, offering a comprehensive analysis of veganism as a

philosophy and as a socio-political transformative movement. Taking in history, science and everyday living, it explores how it is possible to dress ethically, travel, consume and work responsibly and, of course, eat well without compromising vegan ethics. Ethical Vegan is a riveting read - Jordi Casamitjana argues passionately for humans to interact with the world in a positive and compassionate way. This thought-provoking manifesto for doing no harm has the power to open people's minds and help to achieve a better future for all living things and the planet. As informative as it is incisive, as inspiring as it is inviting, this

book will become one of the stand-out pieces of literature in the animal liberation movement. A must read whether you are vegan, vegetarian or otherwise!' The Class of 67 is a historic novel; an episodic, coming-of-age story set on the Ohio State campus in the sixties. The protagonist, Jerry Roush, and

his classmates live through turbulent social upheaval: the free speech movement; the struggle for civil rights, open housing, and access to the pill; the space race, and the threat of nuclear war. Jerry and his friends struggle to incorporate the changes, while dealing with their own identities, relationships, commitments, and expectations all played out on a college campus. The reader will discover or relive what it was like to be in the epicenter of a storm of generation-splitting conflicts including the threat of the military draft and the freedom of sex, drugs and rock n roll. What was the boomer generations reaction to

mandatory military training, to girls hours and PDA (Public Display of Affection)? What did they think and feel during the Cuban missile crisis? Where were they on the day John F. Kennedy was shot? What did white suburban kids do when they discovered how rental housing worked, or racial tensions flared? How did couples obtain an abortion before Roe vs. Wade? Growing up is never easy, but the times made it even more confusing for Jerry and his classmates as they struggled with their idealism when the world they thought they could make clashed with the one their parents sought to keep.
